Subject:

Request for Information regarding amplified music at Pinafore Park

RECOMMENDATION:

THAT: Report PD-58-2022 relating to amplified music at Pinafore Park be received for information.

ORIGIN:

The City and the Special Events Committee have received numerous complaints related to noise (amplified music) coming from Pinafore Park during events sanctioned by the Committee. The Committee has requested that the Special Events policies be investigated in relation to the City's Noise By-law.

BACKGROUND:

Special Events are an economic generator for the City and are desirable to Council. Music festivals have become more popular and the electronic amplification of bands playing at these events can impact neighbouring residential properties. A method of regulating and monitoring these festivals is necessary to balance these two opposing interests.

NOISE BY-LAW ANALYSIS:

The City of St. Thomas By-law 160-2020 is a by-law to control Noise within the City. The overriding directive of the Noise By-law is that no one shall cause Noise:

- 2.1 No Person shall emit Noise, or cause or permit the emission of Noise that is likely to disturb the inhabitants.*

The by-law goes on to define that anything within the limits of NPC-300 shall not be deemed Noise:

- 3.1 No Person shall cause or permit the emission of Noise from a stationary source such that the level of sound from that source at a Point of Reception located in a Residential Area exceeds the applicable sound level limit prescribed in Publication NPC-300 "Environmental Noise Guideline," as amended.*
- 4.3 Excepting those Noises specifically described in Section 2.2 of this By-law, any level of sound at a Point of Reception which is below the limit set out in a Technical Noise Control Publication published by the Ministry of the Environment, Conservation and Parks shall be deemed not to be noise for the purpose of this By-law.*

However NPC-300 does not speak to amplified music. The by-law does go on to limit the times of day that amplified music may be played. There is no decibel level applied to this permission, but Article 2.1 still applies:

- 3.3 No Person shall emit or permit the emission of Noise resulting from an act listed in Schedule "A" to this By-law if clearly audible at a Point of Reception located in any area of the Municipality within a time period when that Noise is prohibited in the area where the Point of Reception is located, as set out in Schedule "A" to this By-law.*

Schedule A (line 2) ...

ITEM	RESIDENTIAL AREA	BUSINESS AREA	OPEN SPACE AREA
<i>The operation of any electronic device or group of connected electronic devices incorporating one or more loudspeakers or other electromechanical transducers and intended for the production, reproduction, or amplification of sound.</i>	<i>At all times</i>	<i>11 pm – 7 am</i>	<i>11 pm – 7 am</i>

Article 3.3 would be the controlling clause to regulate amplified music in conformance with Article 2.1. However, in the case of events approved by the Special Events Committee, the exemptions section of the by-law goes on to exempt these events:

4.5 Notwithstanding any provisions of this By-law, it shall be lawful to emit or cause or permit the emission of Noise in connection with a Special Event.

Therefore any event approved by the Special Events Committee is not subject to the Noise By-law. This was purposely done so that special events, desirable to the Committee, might proceed unencumbered.

ROCK THE PARK:

Among other events, the City of London hosts a similar event to the type being contemplated herein, “Rock the Park.” As in St. Thomas, London also exempts Special Events from their Noise By-law and regulates these types of events through their Special Events Committee. London’s committee enters into an agreement with the promoter which sets the terms of noise generation and requires a deposit as a surety. By-law enforcement officers monitor the noise level (max 90 dB) at residential points of reception and report findings directly to the sound control booth that adjustments to sound levels may be made as required.

STAFF RECOMMENDATION:

It is recommended that the Special Events Committee add a section to the Special Events Manual regarding amplified music. It is further recommended that a draft agreement be developed which will address all of the issues, such as, but not limited to;

- Surety deposit
- Time of day permissions
- Maximum decibel levels at residential points of reception
- Fees to cover by-law enforcement forces and equipment
- Dynamic contact with sound control booth during the event

Further to this, discussions will be required with by-law enforcement as to their requirements in support of this venture.

Respectfully submitted,

Chris Peck

I. INTRODUCTION

The City of St. Thomas Special Events Committee was formed in order to work with organizers to produce successful events. The Committee strives to help co-ordinate and maintain high standards, which are applicable and beneficial to all the parties involved in a special event. The Committee reports to Council with any changes to this manual. This manual correlates to the Special Events Permit Application.

This manual is designed to help you navigate through all requirements and essentially, present a safe and successful event in the City of St. Thomas. All organizers should review this manual and fulfill all requirements pertinent to each event prior to filing the application with the City Clerk's Department. This manual is designed to outline areas of responsibility for the festival or event organizer in St. Thomas so that all terms and conditions can be clearly understood and complied with. An application must be submitted to the Committee even if it is an annual event. All information and materials submitted for the application shall be made available to the public.

NOTE: Applications must be received in the City Clerk's Department at least 12 weeks prior to the event.

It is recommended that when multiple events have proposed the same location(s) and time, that the applications be treated on a first come-first serve basis.

The Corporation of the City of St. Thomas is at your service to help you in every way possible to make your event a success. If you have any immediate questions or comments about the process, please contact the City Clerk's Department at (519) 631-1680 ext 4100. Additional contact information for specific departments and areas can be found within the manual.

A major event is more than eight hours and has projected attendance over 200, while other events are less than eight hours and have a projected attendance under 200.

The primary types of special events include the following, or a combination of both:

SOCAN - 1-800-557-6226 or www.socan.ca

In accordance with the provisions of Noise By-law 68-2003, the use of sound reproduction devices during special events is authorized between the hours of 8:00 a.m. and 11:00 p.m. so long as the Police are satisfied that said devices are being "used in a reasonable manner" (i.e. the volume is not intolerably high so as to unreasonably disturb the peace and comfort of any person in any dwelling house, apartment, hotel or other type of residence).

For events not taking place in a City facility, it is the responsibility of the organizers to obtain any applicable musical licencing through SOCAN. If your event is taking place at a rented City facility, a SOCAN charge will be applied to your permit invoice. A SOCAN licence gives you the freedom and flexibility to use virtually any music you want for your business or public event – legally, ethically, and easily. Without SOCAN, you would have to get permission and negotiate a royalty with every songwriter, lyricist, and music publisher whose work you intend to play.

Please note that if utilizing a temporary stage structure, regulations are found under the Occupational Health and Safety Act and enforced by the Ministry of Labour. A resource document for event organizers can be found on the Special Events page on the City of St. Thomas website.

Road Closures / Traffic Flow Changes

Road closures require a Right of Way Occupancy Permit and City Council approval. Please note that there is a fee for obtaining a Right of Way Occupancy Permit. Once your Special Events Application has been approved, the Manager, Roads and Transportation will prepare a report for Council approval and will contact you. Please note that preparing the report and obtaining Council approval may take several weeks.

Adequate provision for bus service is essential when planning an event route. A City street that is a public transit route shall not be closed for an event unless there is an acceptable parallel road that can be used as an alternate public transit route.

Marshals, volunteers and special event staff are not permitted to direct traffic. Pursuant to the Highway Traffic Act, only the Police can direct traffic.

If your event involves any major arterial or minor arterial classification of road than you must consider having the roadway closed, having the police present or changing the location of your event. Having the police present involves paying to have off-duty officers present for the duration of your event.

Temporary detour and/or advance warning signs may be required by City staff or Police to divert traffic away from the vicinity of the event. If required, they shall be erected, maintained and removed by City staff. It is the responsibility of the event organizers to ensure that all streets that intersect with the closed portion of the road are completely barricaded at both ends of the closure at all times. It is the responsibility of the event organizer to ensure that trained volunteers are positioned at both ends of the road closure at all times to assist emergency vehicles and those with legitimate business through the barricaded area and that a 6 meter passageway is kept clear of obstacles at all times within the road closure so that emergency vehicles can proceed through unimpeded.

It is the responsibility of the event organizer to provide details of the event to residences, businesses, churches and any other institution or organization that may be impacted by the event a minimum of 10 days in advance of the event where reasonably possible. Furthermore, the event organizer will work with business representatives, etc., to minimize any inconvenience the event may cause. Funeral homes shall be notified 48 hours prior to the event.

Parking

If an event is going to impact Municipal Parking Facilities (both on and off City streets) the organizer must contact the Environmental Services Department - Roads and Transportation to arrange a parking plan. All event parking will be arranged to ensure the safe flow of traffic before, during, and after the event. City staff and City Council must approve exclusive use of public parking lots.

Please note that accessible parking spaces in parks are to remain unobstructed and available for their intended use during events.

Sidewalk Sales

It is the responsibility of the applicant to ensure that each business within the limits of the proposed sidewalk sale receives adequate prior notification and is given the opportunity to participate. It is the responsibility of the applicant to install, maintain and remove any barricades that may be required by City staff or the St. Thomas Emergency Services. No tables or barricades shall be permitted within 6.0m (20ft) of an intersection. There must be a minimum of 1.5m (5ft) of clear sidewalk space maintained at all times. Access must be maintained at bus stops for buses loading and discharging passengers. Merchants participating in the sidewalk sale shall be restricted to the sidewalk within the boundary lines of their establishment as extended across the sidewalk. Merchants wishing to use sidewalk space in front of an adjacent establishment as part of their display requires the written approval of that establishment's proprietor.

It is the responsibility of the applicant to ensure that any litter generated as a result of the sidewalk sale is picked up and disposed of properly.

Demonstrations

Demonstrations having less than 150 participants shall be restricted to the sidewalk. Demonstrations having more than 150 participants may use part of the roadway. City staff or a Police officer shall determine the extent of the road use. Demonstrations having less than 150 participants conducted outside a non-internationally protected property shall be restricted to the sidewalk on the opposite side of the street. Demonstrations having more than 150 participants conducted outside a non-internationally protected property may use part of the roadway adjacent to the sidewalk on the opposite side of the street. The St. Thomas Police shall determine the precise parameters of the demonstration and whether the use of the street is required. If no sidewalk exists, the demonstration shall not be permitted within 15m (49') of the establishment. The St. Thomas Police and or City staff may make exceptions for small demonstrations or when it is more practical for the participants to be in front of the establishment.

Signs or banners, other than plastic foam core signs, must be made of cardboard or cloth/nylon. Plastic foam core signs must be limited to 1.0cm (0.39") in thickness, 15.0cm (5.9") in width and 40.0cm (15.7") in length. Recycling Containers and Collection

Event organizers are encouraged to have recycling programs in place where Blue Box recyclables (consistent with City of St. Thomas program List 1-3 below) are being generated. Recycling containers and collection can be arranged through the Environmental Services Department.

The City will provide an appropriate number of recycling containers (95 gallon roll carts) for use during the event and will arrange for the removal of recyclable materials from a designated location (which may include curbside for smaller events) after the event. The City will be responsible for the collection of the organic material from the carts placed in the designated collection area. There is no charge associated with the collection of recyclables and compost materials for special events.

Event organizers need to inform the City of the range of waste materials being generated. City representatives will work with event organizers to ensure the recycling containers are on site and appropriately distributed around the event.
