I. INTRODUCTION

The City of St. Thomas Special Events Committee was formed in order to work with organizers to produce successful events. The Committee strives to help co-ordinate and maintain high standards, which are applicable and beneficial to all the parties involved in a special event. The Committee reports to Council with any changes to this manual. This manual correlates to the Special Events Permit Application.

This manual is designed to help you navigate through all requirements and essentially, present a safe and successful event in the City of St. Thomas. All organizers should review this manual and fulfill all requirements pertinent to each event prior to filing the application with the City Clerk's Department. This manual is designed to outline areas of responsibility for the festival or event organizer in St. Thomas so that all terms and conditions can be clearly understood and complied with. An application must be submitted to the Committee even if it is an annual event. All information and materials submitted for the application shall be made available to the public.

NOTE: Applications must be received in the City Clerk's Department at least 12 weeks prior to the event.

It is recommended that when multiple events have proposed the same location(s) and time, that the applications be treated on a first come-first serve basis.

The Corporation of the City of St. Thomas is at your service to help you in every way possible to make your event a success. If you have any immediate questions or comments about the process, please contact the City Clerk's Department at (519) 631-1680 ext 4100. Additional contact information for specific departments and areas can be found within the manual.

Furthermore, the event organizer will work with business representatives, etc., to minimize any inconvenience the event may cause. Funeral homes shall be notified 48 hours prior to the event.

Parking

If an event is going to impact Municipal Parking Facilities (both on and off City streets) the organizer must contact the Environmental Services Department - Roads and Transportation to arrange a parking plan. All event parking will be arranged to ensure the safe flow of traffic before, during, and after the event. City staff and City Council must approve exclusive use of public parking lots.

Demonstrations

Demonstrations having less than 150 participants shall be restricted to the sidewalk. Demonstrations having more than 150 participants may use part of the roadway. City staff or a Police officer shall determine the extent of the road use. Demonstrations having less than 150 participants conducted outside a non-internationally protected property shall be restricted to the sidewalk on the opposite side of the street. Demonstrations having more than 150 participants conducted outside a non-internationally protected property may use part of the roadway adjacent to the sidewalk on the opposite side of the street. Recycling Containers and Collection

Event organizers are encouraged to have recycling programs in place where Blue Box recyclables (consistent with City of St. Thomas program List 1-3 below) are being generated. Recycling containers and collection can be arranged through the Environmental Services Department.

The City will provide an appropriate number of recycling containers (95 gallon roll carts) for use during the event and will arrange for the removal of recyclable materials from a designated location (which may include curbside for smaller events) after the event. For those events who wish to collect organic material, the City will provide use of 35 or 63 gallon roll carts for the collection of the material. The City will be responsible for the collection of the organic material from the carts placed in the designated collection area. There is no charge associated with the collection of recyclables and compost materials for special events.

Event organizers need to inform the City of the range of waste materials being generated. City representatives will work with event organizers to ensure the recycling containers are on site and appropriately distributed around the event. Generally, this will require the special event organizers to place the recycling containers adjacent to the garbage containers where possible.
